Safety Sabbath[®]

Sign up to participate in Safety Sabbath® 2021 and help your church improve its online safety and safeguard against cybercrime. Churches are not exempt from cybercrime, which globally is expected to cost **\$11.4 million every minute** in 2021. Is your church safe from cybercrime?

Safety Sabbath is an opportunity for Seventh-day Adventist Churches to focus on safety issues and create a safer environment for their congregation. Each year Adventist Risk Management, Inc. (ARM) provides churches with resources to help them focus on a specific area of safety.

This year Safety Sabbath will be March 27, 2021 and will focus on helping churches:

- protect against cybercrime
- avoid liabilities from streaming services online
- adapt child protection policies to an online environment

Sign up today to receive tips on how to prepare for Safety Sabbath and a valuable resource kit to help you protect your congregation. You can participate in Safety Sabbath whether you are meeting in person or virtually. Register today to learn more.
